## ASX RELEASE [ASX:EUM]

---

### APPROVAL FOR EXPLORATION PERMIT FROM KAYAH STATE GOVERNMENT, MYANMAR

- **Successfully obtained Kayah State Government approval for exploration permit**
- **Allows the Company to seek agreement of exploration terms with DGSE**
- **Once exploration terms are agreed, move to full approval from National Ministry of Mines**

The board of Directors of Eumeralla Resources Ltd (EUM or the Company) are pleased to announce its 70% controlled Myanmar subsidiary, Mawsaki Mining Co., Ltd, has received State Government approval for its exploration permit in the State of Kayah. The approval comes after successful negotiations with the Office of Chief Minister, Kayah State, State Minister, Ministry of Forest and Mines, both the State Forest Department and State Land Records Department in Loikaw and Office of Township Administration, Hpa-hsaung.

The approval was ratified by a Kayah State Government Cabinet resolution.

The approval allows the Company to now agree the exploration terms with the Department of Geological Survey and Mineral Exploration (DGSE). This process will include commissioning of an Environmental Management Plan (EMP) for approval by DGSE. Once the exploration license terms are approved by the DGSE, Auditor Generals office and the Attorney Generals office it clears the way for the Company to seek National approval from the Myanmar Ministry of Mines and granting of the exploration license.

EUM and local partner, Myanmar Energy Resources Group International Co. Ltd (MERG), formed the joint venture, Mawsaki Mining Co., Ltd, to jointly apply to Myanmar Government's Ministry of Mines for an exploration lease of approximately 400km<sup>2</sup> in Kayah State, Myanmar.

The approval from the Kayah State Government is a significant step in the process of gaining full exploration permit from the Myanmar Ministry of Mines.

The proposed lease is in an established Primary tin and tungsten producing area of Myanmar. Kayah State is the home of the former British primary Tin and Tungsten mine "Mawchi Mine" in Bawlake which was historically considered a significant source of Tungsten throughout Asia. Based on historical data and geological mapping, EUM believes this concession has the potential for a primary tin and tungsten discovery.

#### **About Eumeralla Resources Ltd**

Eumeralla is an emerging ASX-listed (ASX:EUM) metals explorer. The Company was listed on the ASX on 3 May 2012 for the primary purpose of acquiring and exploring mining projects initially in Mongolia and more recently, Myanmar. The company's strategic vision includes discovering commercially significant minerals deposits. In Mongolia, the license covers an area of 12,657 hectares and encompasses the historical Chuluun Khoroot tungsten mine, which was active during the period 1945-1955. The License area is located in NE Mongolia approximately 20 km north of the town of Dashbalbar, 850 km NE of Ulaanbaatar and 85 km NW of the Solowevsk-Choibalsan railway. In Myanmar, the company has three separate JV partners with applications pending for several mining leases. The biggest of which is a 400km<sup>2</sup> concession in Kayah State, which plays host to the historical Mawchi Tungsten mine. The Company's initial metal focus will be on tin and tungsten, although other commodities may be targeted in the future. Eumeralla is constantly assessing other projects throughout SEA with a view to add value to shareholders.
