CHULUUN KHOROOT TUNGSTEN PROJECT

The Company has signed a contract to provide initial mapping, sampling and surveying of its licence site in Northern Mongolia, ahead of commencing a drilling program. The License covers an area of 12,657 hectares and incorporates the historical Chuluun Khoroot tungsten mine which was active during the period 1945-1955.

Field work commenced during the quarter and exploration drilling is planned to commence in Q3 2012. During July, approximately 300 samples have been collected. The total cost of the mapping and sampling is estimated to be USD 80,000.

About Eumeralla Resources Ltd

Eumeralla is an emerging ASX-listed (ASX:EUM) metals explorer. The Company was incorporated on 19 January 2011 for the primary purpose of acquiring and exploring mining projects in Mongolia with the aim of discovering commercially significant minerals deposits. The License covers an area of 12,657 hectares and encompasses the historical Chuluun Khoroot tungsten mine which was active during the period 1945-1955. The License area is located in north-eastern Mongolia approximately 20 km north of the town of Dashbalbar, 850 km north-east of Ulaanbaatar and 85 km north-west of the Soloweysk-Choibalsan railway. The Company’s initial metal focus will be on tungsten, although other commodities may be targeted in the future. In addition, EUM is constantly assessing other projects in Mongolia and other SEA countries with a view to scale up and add value to shareholders

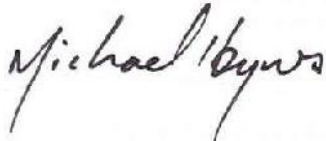

MYANMAR PROJECTS

Following legal and geological due diligence work, the Company signed a non-binding Letter of Intent in July 2012 with Myanmar incorporated Southern World Mining Co Ltd. to jointly explore tin and tungsten licences in Southern Myanmar's historical Tenasserim region.
